Health Concerns that May Affect Learning at School

Parents please reach out to let me know if your student has a new medical issue or medication that might affect their safety and learning while at school (even virtually). If your student had paperwork (care plans), for allergy, asthma, diabetes, seizures, etc., in school last year, please have new forms filled out by your physician and then send them to me for the new school year. Necessary forms can be found on my website (see address below). Medications can remain at home until we are back to school face to face.

More information can be
found on my website:
